

Sunset Social Golf League — 2027 50/50

Weekly 50/50 participation tracker · Thursday 9-hole league · Westhaven Golf Course

Season / date range: _____ Secretary: _____

How to mark a cell: **5** = dollars that golfer put in (write the amount every week) · **10 / 15** = extra tickets, write the real dollars · **5+ML** = joint ticket (your \$ + partner's initials, on *each* partner's row) · **blank** = did not buy (blank is not a zero) · **/** = absent from golf · **○ or W** = won that week (does not change \$ In)

Right-side totals (fill anytime): **Nights** = weeks with any entry · **\$ In** = add up the dollars · **Shared** = count of nights with a “+” joint ticket. A joint ticket still counts as a *full night* for each name; \$ In is only that person’s share, never the whole pot.

SEASON TOTAL →					

“\$ collected this week” is the whole pot and should be about **2×** what you deposit as the league half (the winner already got the other half in cash). Do **not** record the payout or the deposit here — those live in the treasurer register.

50/50 checklist — how to fill it out

Purpose: we're counting who takes part in the 50/50 through the 2027 season so we can build fair participation incentives for 2028. This sheet is only a tally — it never touches the money that goes in the treasurer's register.

The one rule that matters: in a golfer's cell, write the **dollars that person actually put in** that week. Blank means they did not buy. That's it — everything below is just the details.

Solo buy-in

- **Standard amount:** write the dollar amount in that week's cell — e.g. 5. (Even if it's always the same, writing the number every week is best; a tick alone works only if you note the \$ whenever it changes.)
- **Extra tickets:** write the real dollars — 10, 15, and so on.

Joint / group buy-in (a pair or group sharing one ticket or one win)

- On **each** partner's row, write the dollars **that person** put in, then a small + and the partner's initials — e.g. 5+ML on Alan Lloyd's row and 5+AL on Mike Lloyd's row.
- **Never put the whole pot on both rows.** Each row shows only that golfer's share.
- A joint ticket still counts as a **full night** for every name on it. It just doesn't double the dollars.

Other marks

- **Did not play the 50/50:** leave the cell **blank** — blank means “no,” not zero.
- **Absent from golf that week:** optional slash / through the cell, so a blank there isn't read as “chose not to buy.”
- **Winner that week:** circle the cell or add a W. This does **not** change their \$ In — the win is cash paid that night.

The three totals on the right

- **Nights** — count the weeks with any entry (solo or joint).
- **\$ In** — add up the dollars you wrote across the row.
- **Shared** — count the nights with a “+” (on a joint ticket).

Weekly totals row

- **Buyers this week** — how many golfers bought in (count the joint players individually).
- **\$ collected this week** — the whole pot; roughly **2×** the league-half deposit.
- **Running** columns — add each week onto the last so you can see the year climb.

Do not record here

- The winner's payout and the league-half deposit stay in the **treasurer register**, not on this sheet.

2027 season summary

Fill in after week 18 — totals from the checklist, plus a spot to flag who qualifies for a 2028 incentive.
